PREFACE.

THE thirteen sectional parts of this volume have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors, but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

The Government Statistician wishes to express his thanks to the Commonwealth Statistician, to the responsible officers of the various State and Commonwealth Departments, and to others, who have kindly supplied all desired information, often at considerable trouble.

Bureau of Statistics,

NOTE.—The figures quoted above represent the population of New South Wales within its present boundaries. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. The Federal Capital area of Yass-Canberra was transferred to the Commonwealth on 1st January, 1911.

Aborigines are included in the totals for the last six Censuses. The numbers included were 983 in 1871, 1,643 in 1881, 8,280 in 1891, 4,287 in 1901, 2,012 (of whom 10 were in the Federal Capital area) in 1911, and 1,597 (M. 923, F. 674) in 1921.

* The population of the Federal Capital area (997 males, 727 females, 1,724 persons) is excluded.

NOTE.—From the records of the 1861 Census, the ports at which ships were lying are not available, so that the shipping population of Sydney cannot be ascertained. The total shipping population was 1,910 (males 1,842, females 68), and two-thirds of that number have been assumed to have been in Sydney Harbour, and are included above.

Aborigines are included in the totals for the last six censuses.

* The Suburbs in 1921 comprised 40 Municipalities and Ku-ring-gai Shire.

* The figures in this column represent distinct children who attended a State school during the whole or some portion of the year, children who may have received instruction at more than one State school during the year being counted only once.

† The enrolment of scholars and the average daily attendance having been determined for each quarter of the year, an average of the four quarters is taken, and the results are as stated.

‡ These figures include children temporarily absent from illness or other causes, but exclude those who are known to have left school.

Religious Instruction.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools must be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology." Provision is made for authorised teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their religion, and separate class rooms are provided generally for this purpose. The total number of visits paid to State schools during 1923 by authorised teachers was 87,935, namely;—Church of England, 41,910; Roman Catholic, 2,163; Presbyterian, 14,291; Methodist, 19,701; other Denominations, 9,870.

Subsidised Schools.—Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public School that attendance is impracticable. The conditions are that where a private teacher is engaged by two or more families in combination, or by a single family with not less than four children of school age, such teacher, if approved by the Minister, may be paid subsidy as follows:—

"In the Eastern portion of the State at the rate of £5 per pupil per annum on the average monthly attendance, such aid not to exceed £50 yearly, and in the Western portion of the State, £6 per pupil per annum, not exceeding the sum of £60 yearly. The Western portion of the State shall be that portion within which living allowances are granted to Officers under the Public Service Board."

Subsidy may be paid also to a parent as an aid towards the boarding of the children with friends or relatives in a township for the purpose of attending a Public School, at the rate of 6d. per day in the Eastern Division of the State, for each full day's attendance, up to a maximum of £5 per child, per annum, and at the rate of 7d. per day, up to a maximum of £6 per child, per annum, in the Western Division of the State.

Superior Public Schools.—In addition to the above Superior Public (Day Continuation) Schools, established in 1912, composite courses were introduced into Country Schools in 1920 and have a definite aim. Course A leading to the Intermediate Certificate, Course B to the Commercial Superior Public School Certificate, while Course C qualifies pupils for the Public Service Entrance Examination.

These courses meet a distinct demand for the super-primary education of children attending schools in more or less sparsely-populated localities. The number of schools engaged in this work at the end of 1923 was 328, having an effective enrolment of 3,634 post-primary pupils, with an average attendance of 3,047.

Rural Schools came into operation in January, 1923, and during the year there were 12 schools with a total enrolment of 584, and average attendance of 443 pupils.

The Teachers' College, Sydney, provides various courses preparing teachers for positions as rural school teachers, primary kindergarten, and secondary school assistant teachers. Courses range from twelve months—for rural school teachers—to three and four year courses, leading to graduation in Arts or Science. In addition to academic work at the College, students are given practical work in the Demonstration Schools at Blackfriars, North Newtown, and Darlington, and at selected supplementary practice schools. The number of volumes in the College Library is 21,400.

* After having graduated in Medicine.

Under its Charter, the University of Sydney may confer, after examination, degrees in Arts, Law, Medicine, Science, Engineering Dentistry, Veterinary Science, Agriculture, Economics, and Architecture; but not in Theology and Divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Faculties.—There are now ten Faculties: Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture, Economics, and Architecture.

PART III.

LOCAL GOVERNMENT.

EXPLANATION.

THE tables in this volume were compiled from returns supplied by the various loca governing bodies.

The municipalities of Mittagong and Windsor failed to furnish returns, and figures for the year 1922 have been inserted.

The financial tables were summarised from statements prepared by the Councils according to the forms prescribed by the Ordinances under the Local Government Act of 1919. These ordinances provide that the accounts must be Income and Expenditure Accounts, kept by double entry, and that each "Fund" must have a separate banking account. Thus there is shown for each General, Special, or Local Fund, and for each Trading Fund, of each area concerned, a "Revenue Account" (or Profit and Loss Account) giving the total expenditure chargeable for the period (whether paid or unpaid) and the total income for the same period (whether received or outstanding). A balance-sheet is also shown for each Fund with appropriate liabilities and assets. Only "realisable" assets are allowed to be included; so that the whole of the roads, bridges, drains, and other constructive works, which are often taken to account as assets elsewhere, are here excluded.

General Fund.—The Act prescribes that there must be a general fund in each local governing area, into which must be paid the proceeds of all general and additional general rates, loans, moneys received by way of grant, endowment, &c., from the Government, and other income not required by law to be carried to other funds. The expenditure from the fund must be on administration, health, roads, and other public services.

Special Fund.—A Special Fund must be kept for each special rate levied, and for each work or service carried on by the Council in respect of which the special rate has been made, and the fund must be applied only for the purposes of such work or service. A special rate is levied only for a special object and applies to the whole area.

Local Fund.—A Local Fund must be kept for each local rate levied, with similar restrictions to those in the case of special funds. A local rate is levied for a local purpose, and applies only to that portion of the area which is benefited, and the expenditure of the local fund is restricted to work within, or for the sole benefit of, that portion of the area.

City of Sydney.—The financial transactions of the City of Sydney are shown separately from the other municipalities of the State, as the City Council conducts its affairs under the Sydney Corporation Acts, and not under the Local Government Act.

No. 5.—Municipalities—Valuations for year ended 31st December, 1923.

NOTE.—In this table the *Unimproved Capital Value* is the amount which the fee-simple estate in such land is worth under such reasonable conditions as a *bond-fide* seller would require, assuming the actual improvements had not been made.

The *Improved Capital Value* is the amount which the fee-simple estate of the land is worth, with all improvements and buildings thereon.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

No. 20.—Distribution of Total Loan Expenditure to 30th June, 1924.

NOTE.—The total loan expenditure has no necessary relation to the public debt, although at times the amounts are approximately the same. The former is continually increasing according to the amount of loan moneys spent annually, while the public debt outstanding may be either reduced by the redemption of loans from revenue or increased by the issue of new loans, and may include large sums in hand.

No. 21.—Annual and Total Loan Expenditure, 1842–1924.

NOTE.—The difference between the actual Loan Expenditure stated below and the Public Debt, as shown in No. 22 and following tables, is due to the fact that the outstanding debt represents the gross amount sold, while the expenditure is the net amount after deducting discount and expenses of flotation and allowing for debit balance of Loan Account.

No. 22.—Public Debt—Amount Authorised, Sold, Redeemed, and Outstanding, 1900–1924.

NOTE.—The difference between the amounts outstanding at the close of each year does not, as a rule, represent the actual increase or decrease in the Debt. Repayments of loans are generally effected under the head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan some time before the due date of the maturing loan; hence the liability appears twice in the Debt Statement till the bonds or stocks are retired.

London Agents.—Operations connected with the issue and inscription of Stock are conducted by the Bank of England and the London and Westminster Bank. The former charges ¼ per cent. per £100 Stock on all loan issues, and £350 per million annually for the inscription and management of Stock including the payment of the half-yearly dividends, while the latter charges ¼ per cent. and £150 per million respectively for similar services.

Local Agents.—The Bank of New South Wales and the Commercial Banking Company of Sydney, Limited, transact all Government banking business. The former acts as Financial Agent for the State in Victoria, and also undertakes the payment of the half-yearly dividends on Local Debentures and Funded Stock. The Treasury, however, in local loan issues, directly conducts the operations connected with the issue of New South Wales Funded Stock and Treasury Bills.

No. 25.—Public Debt, 30th June, 1924—Dates of Maturity and where Registered.

NOTE.—The latest due date has been given in this table, but in some cases the loans are redeemable earlier, subject to the Government giving notice to that effect, at periods ranging from three to twelve months.

The stock of the Public Debt may be transferred at any time from London to Sydney.

* 30th June 1924.

Legislative Council.—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In June, 1924, the number of members was eighty-one. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. The President of the Legislative Council receives a salary of £925 per annum, and the Chairman of Committees £500 per annum.

Legislative Assembly.—New South Wales is divided into twenty-four electorates, of which nine in the Sydney Metropolitan Area and Newcastle are represented by five members each, and each of the others by three members. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £600 per annum until he resigns or his seat is vacated, or, where Parliament has been dissolved or has expired by effluxion of time, until the day appointed for taking the poll for the next general election (Parliamentary Allowance and Salaries Act, 1922), by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,400 per annum, and the Chairman of Committees £840 per annum.

Defence Act, 1903-18 (*Commonwealth*).—This Act provides that all male inhabitants of Australia (except a few exempted by the Act) who have resided therein for six months, and are British subjects, and reside within 5 miles of a training centre, shall be liable to naval or military training, as follows:—(*a*) From 12 to 14 years of age, in the Junior Cadets; (*b*) from 14 to 18, in the Senior Cadets; (*c*) from 18 to 25, in the Citizen Force; and (*d*) from 25 to 26, in the Citizen Force. For the present, however, training is limited as follows:—

(a) Junior Cadets—training in abeyance from 1st July, 1922, but was resumed on 1st July, 1924
(b) Senior Cadets—training limited to two years. This training commences on 1st July, of the year in which Senior Cadets reach the age of 16 years.
(c) Citizen Forces—training limited to two years. This training commences on 1st July of the year in which trainees reach the age of 18 years.

Notwithstanding these limitations persons liable to be trained under Part XII of the Defence Act are still required to register themselves for training during the months of January and February of the year in which they reach the age of 14 years.

The Royal Military College of Australia is situated at Duntroon, near Queanbeyan, and the Royal Australian Naval College at Jervis Bay

* Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportion of one-third each, and this sum represents practically the expenditure for the year.

† Outside Fire Brigade area. ‡ There were in addition 27 chimney fires and 75 false alarms.

Gross and Net Value of Estates.—The figures from the Probate Court and from the Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken on a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Courts of Marine Inquiry.—In respect of British ships, these Courts hear and determine inquiries as to wrecks and other shipping casualties, or as to charges of incompetency or misconduct on the part of masters, mates, or engineers. Appeals and references under the Navigation Act (No 60, 1901) are also heard and determined. One or more District Court Judges constitute a Court of Marine Inquiry, and the Court is assisted by the assessors appointed under the said Act, but such assessors have power only to advise and not to adjudicate on any matter before the Court.

Appeals from Magistrates' Orders or Convictions.—The right to appeal to Quarter Sessions lies against all convictions or orders by Magistrates, excepting adjudications to imprisonment for failure to comply with an order for the payment of money, for the finding of sureties, for the entering into a recognizance, or for giving security, and orders for the payment of wages and convictions for breaches of dicipline under the Seamen's Act, 1898. The Appeal Court re-hears the cases, deciding questions of fact as well as of law.

† Only 2 of these were cases stated by a magistrate. Of the others, 1 was a case stated by the Judge in Divorce, 1 was an appeal against Income Tax Assessment, 1 was an appeal under Navigation Act, and 1 a case stated by the Attorney-General for the opinion of the Court.

‡ Of these, 2 were cases referred by Judges and 4 were against Taxation Assessments.

Special Cases from Courts of Petty Sessions must be brought, in the first instance, before the Judge sitting in Public Chambers, who is vested with the authority and jurisdiction of the Supreme Court and who may refer such cases to the Full Court. Land Appeal Cases and cases under Local Government Act, 1906, are set down for argument before the Full Court only. Special Cases from Wardens' Courts are brought, in the first instance, before the Judge sitting in Public Chambers, unless both parties consent to place their case before the Full Court. The Judge may refer any such case to the Full Court.

Industrial Arbitration.—Industrial unions may be registered and incorporated under the Industrial Arbitration Act, 1912, and amendments. The Court of Industrial Arbitration determines industrial disputes, fixes minimum wages (up to £10 per week) and other conditions of employment upon application of employers or of unions; its awards are binding on all persons engaged in the industry concerned. Industrial Boards are constituted for various industries, but since 1916 their functions have been excercised by the Court, except in the Broken Hill district. An appeal lies from an award of a single Judge to the Court constituted by three Judges. The Industral Registrar deals with applications for registration of unions, for permits for the employment of outworkers, and for permits to infirm and slow workers to work for less than award rates. Breaches of awards and industrial agreements are dealt with by Industrial Magistrates. Appeal from decisions of Industrial Registrar or Magistrates lies to the Court of Industrial Arbitration.

Conciliation.—Conditions of employment may be arranged by industrial agreements which, upon registration, are binding on the parties. Conciliation committees may be appointed by the Minister for Labour, and the Special Commissioner for Conciliation may intervene in cases of industrial disputes.

The Board of Trade under the presidency of a Judge of the Court determines periodically the living wages for adult employees, which are the lowest which may be fixed by any award or agreement.

Commonwealth System of Conciliation and Arbitration.—The Commonwealth Court of Conciliation and Arbitration exercises jurisdiction in relation to industrial disputes extending beyond the limits of any one State, its awards are binding only on the parties to the disputes. Similar powers may be exercised by special tribunals appointed under the Industrial Peace Acts, 1920, for the prevention or settlement of industrial disputes. Registered Industrial agreements have the force of awards. On 30th June, 1924, there were 81 awards and 67 agreements in force in New South Wales. The Public Service Arbitrator determines conditions of employment in the Public Services of the Commonwealth; 28 determinations were in force in New South Wales as at 30th June, 1924.

Appeals.—The right of appeal may be exercised only in causes in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.

Causes tried by Jury.—In all actions where the amount claimed exceeds £20, the Judge may order, or the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.

Number of District Courts.—At the end of the year 1923 there were 61 District Courts in the State, and 7 District Court Judges.

Garnishee Cases.—Upon the *ex parte* application of any creditor who has obtained a judgment, the Court may order that all debts due by a third person (the garnishee) to the defendant, except in the cases of wages or salary at £2 per week or under, shall be attached to meet the judgment debt; and, by a subsequent order, may direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt. In cases where wages or salary exceed £2 per week, an order may be made only for the amount of wages or salary in excess of that amount. The total cases in 1923 numbered 2,694.

Interpleader Cases.—When a claim is made to goods held under a writ of execution by a person not party to the suit, the Court may decide the claim, upon application by the bailiff. There were 26 cases in 1923.

Examination of Judgment Debtors.—On the application of a judgment creditor, the Court may order the judgment debtor to be orally examined as to any debts due to him. The cases in 1923 numbered 1,505.

Street-trading Licenses.—These licenses are now issued under the provisions of the Child Welfare Act, 1923, which superseded the Neglected Children and Juvenile Offenders Act, 1905. Badges are worn during the time of such trading. Only boys over 12 years may be licensed; the hours of trading are from 7 a.m. to 7 p.m. for boys under 14 years, and from 6 a.m. to 10 p.m. for boys over 14 years. Girls under 16 years of age are prohibited from trading. Boys of school age may not trade within school hours. Playing, singing, or performing for profit are permitted only in the case of boys over 14 years of age. Persons employing a child under 16 in street trading, who is not licensed, are liable to a penalty not exceeding £5 for the first offence, and £10 for the second or subsequent offence.

Theatre Licenses.—The Child Welfare Act, 1923, which superseded the Children's Protection Act, 1902, prevents children from taking part in public exhibitions or performances whereby the lives or limbs of such children are endangered. Where, however, it is shown that proper provision has been made for the health and kind treatment of children to be employed at premises licensed for public entertainments, children over 7 years of age may be granted licenses under restrictions and conditions. These licenses may be rescinded at any time.

* Information not supplied in all cases.

Amount of Consideration.—Many mortgages do not state the amount lent under them, and many discharges do not disclose the amount received in consideration. The figures representing "Amount of Consideration" under both these heads are therefore considerably less than the amounts actually advanced or repaid.

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under both heads.

In 1923 the gross amount lent on liens was £1,191,502; but from this has to be deducted the sum of £416,649 secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £774,853.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1923 there were 52 formal discharges of wool liens registered, representing £39,860.

NOTE.—Many mortgages of Stock come to an end without formal discharge.

NOTE.—In addition to the inebriates shown in the returns, all of whom were dealt with under the provision of the Inebriates Act, 1912, 19 males and 8 females were admitted to Shaftesbury Institution as voluntary patients, and they paid for their maintenance while inmates of such institution. Of these, 3 males and 2 females were remaining on 31st December, 1923.

The Inebriates Act.—The Inebriates Act, 1912, provides for the special control and treatment of inebriates. Where a person has been convicted of an offence of which drunkenness is a component, or of assaulting women, cruelty to children, attempted suicide, or wilful damage to property, and it appears that drunkenness was a contributing cause of such offence, a Stipendiary or Police Magistrate may order that such offender be placed for a period of twelve months in a State Institution established by the Governor for the treatment of inebriates. On the order of a Judge, or of the Master-in-Lunacy, such period may be extended for further periods not exceeding twelve months each. Where a person has, after 9th September, 1909, been discharged from a State institution, or released on license, or discharged on recognizances, and within twelve months thereafter has been convicted of an offence of which drunkenness is a component, and has subsequently and during the said twelve months been charged with any offence, as herein mentioned, the Court may order him to be placed in a State Institution for a period not exceeding three years. Inmates are employed in remunerative and useful occupations.

Punishments inflicted on Prisoners for breaches of discipline.—During 1923, 1·8 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished years ago.

Gaol Libraries.—The Gaol Libraries contain 22,578 carefully-selected volumes for recreation and instruction of prisoners after working hours.

First Offenders.—Under the provisions of the Crimes Act of 1900, as regards any person who has not been convicted previously of an indictable offence in New South Wales or elsewhere (in so far as is known to the Ccurt) and is convicted of a minor offence, and is sentenced upon such conviction to penal servitude or imprisonment, the Court may suspend the sentence upon the offender entering into a recognizance, with or without sureties, to be of good behaviour for the period of such sentence if for twelve months or over; or, if under twelve months then to be of good behaviour for the full period of twelve months.

Children Released after Conviction.—The Child Welfare Act No. 21 of 1923 provides that where a child is summarily convicted of an offence entailing imprisonment, the Court may release the child on probation upon such conditions as may seem befitting.

Females Released after Conviction for Soliciting for Immoral Purposes.—The Vagrancy Act 74, 1902, provides that when a female is arrested for any offence under section 4, sub-section 1 (i), the convicting Justice may suspend sentence upon such terms and conditions as he thinks fit.

Note.—Mortgages of Registered British Vessels are under the Imperial Merchant Shipping Act of 1894. The mortgages are divided into two classes—one in which the ship is the sole security Principal Sum, and the other in which advances are made on the security of what is termed "the Account Current"—an Account Current being in most cases secured by land and other properties, in addition to shipping. The mortgage deed is generally executed for the full amount of the advance.

No. 17.—Imports Oversea, 1923-24.

(From 1st July, 1923, to 30th June, 1924.)

NOTE.—With the exception of United Kingdom, New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of import exceeds £500. Particulars in the following table refer to "Country of Origin"; details of country of direct shipment are not available.

Value of Imports.—The value of all goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem.*

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1901-1923; the Customs Tariff, 1921 (No. 25 of 1921), and Amendments; South African Preference (No. 17 of 1906) and subsequent amending resolutions; Customs Tariff (New Zealand Preference) 1922.

Where reference has been made by number, in the footnote against any article in this table, it denotes the item appearing in the Customs Statistical Classification to which reference should be made for details.

Total Imports, Oversea, 1923-1924, £58,225,040. Gross Duty received, £11,394,873.

No. 18.—Exports Oversea, 1923-24.

Note.—With the exception of the United Kingdom, New Zealand, and in cases where a single country is concerned, only those countries are shown under each article where the value of the export exceeded £250.

The difference between the value of Australian produce exported and the total export represents the value of produce of oversea origin, re-exported.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages, without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 19.

Class I.—Foodstuffs of Animal Origin, but excluding Living Animals.—

(—) Denotes decrease. * Included with Ordinary Branch, not shown separately. † Premiums on business taken over during the year from Equitable of U.S. were included in receipts.

NOTE.—The management expenses of the societies established in recent years, as compared with the receipts, appear very high, but the initial expenses of new companies include cost of foundation, organisation, brokerage, and other items which will not be incurred again, and the expense ratios will therefore be materially reduced each year.

NOTE.—The great majority of females engaged in rural occupations are employed in conjunction with domestic duties, very few being returned as working for wages. Since 1919 a more careful collection has been made of the number of females engaged in rural pursuits, and it would appear that previously about 12,000 females were included each year (*e.g.*, wives of proprietors) who were engaged wholly in domestic duties. The number of females quoted in the above table for years prior to 1920 represents, therefore, the number as returned, less 12,000.

No. 77.—Prospecting Votes, 1915-24.

Prospecting Vote.—The sum of £7,000 was voted for prospecting for gold in 1878; and in subsequent years, at irregular intervals, further small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

Emeralds and turquoises have been found in small quantities, but no information is obtainable as to their value.

These figures represent the value of minerals won during the year, and therefore differ from those in Tables No. 91 and 93, which show the value (at the mines, and before treatment) of the output from mines in operation during the year.

Surrenders, Exchanges, and Road Resumptions.—Surrenders and exchanges are effected under Sections 195, 196, 197 of the Crown Lands Consolidation Act, 1913, and Road Resumptions are treated under the Public Roads Act, 1902. As land is exchanged for land without any monetary consideration the extent of the area of Crown Lands is not thereby affected.

Resumptions and Purchases.—The total alienations represent the gross area, no allowance being made for the gifts of land and the resumptions and direct purchases made from private owners on behalf of the various Departments, for particulars of which see Table No. 45.

* Includes 9,500 acres, under Murray River Waters Act.

Land acquired by the State.—Land may be acquired by resumption, purchase, exchange, surrender, and by gift. Resumptions are made under the Public Works and the Lands for Public Purposes Acquisition and Local Government Acts. All resumptions, other than those made by the Minister of Public Instruction and the Commissioners for Railways, are treated by the Government Land Valuer. Resumptions under the Commonwealth Lands Acquisition Act, 1906-16, Acquisition (Defence) Act, 1918, and War Service Homes Act, 1918-20, are also included.

*The returns were collected from holdings over 1 acre in extent on which improvements had been effected, and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. Prior to 1920 many holdings, nearly all from 1 to 5 acres in extent were included, which were not used for agricultural or pastoral purposes.

† Particulars of area cultivated will be found in Table 1 of Part Primary Production.

‡ The definition of Unimproved Capital Value and Improved Capital Value will be found on page 142, of Part III, relating to Local Government.

NOTE.—From the year 1919-20 the returns were collected from holdings over one acre in extent on which improvements had been effected and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. In previous years many holdings, nearly all from 1 to 5 acres in extent were included which were not used for agricultural or pastoral purposes.

* Except 1923-24, two wineries are included. † Including working proprietors,

NOTE.—In addition to the quantity of white spirit shown above as distilled from wine, 7,770 gallons were distilled by vignerons during 1923-24. Altogether during that year 309,129 gallons of wine were distilled by vignerons and at distilleries to produce 53,738 gallons of white spirit.

The greater part of the white spirit distilled from molasses is rectified or methylated. Of the remainder, part is used for making rum, and part for fortifying vinegar, perfumes, &c.

During 1923-24 the following quantities of spirits were set aside for the manufacture of rum, 24,762 gallons; brandy, 28,747 gallons; rectified spirits, 879,247 gallons; methylated spirits, 1,172,430 gallons.

No. 57.—Rates of Wages in Various Industries, 31st December, 1924.

The Minimum Rates of Wages, as shown in the following tables, have been fixed by awards of the Court of Industrial Arbitration and of the Industrial Boards of New South Wales, or, in the case of a few industries, by awards or agreements under the Commonwealth Conciliation and Arbitration Acts. In relation to certain domestic occupations which do not come within the scope of any industrial award, average rates have been stated.

The rates relate to the Metropolitan district except in the following cases:—The mining and shipping industries, agricultural and pastoral pursuits, and several important works situated in country districts, for which special awards have been made, viz., the Portland Cement Works, the Lithgow Iron Works, the Newcastle Steel Works, and the Cockle Creek Smelting Works. The living wage in N.S.W. (excluding the county of Yancowinna) was declared on 7th September, 1923, at 82s. per week for men, and 41s. 6d. per week for women, and these rates prevailed during the year 1924.

Hours of Work.—The normal working week is forty-eight hours, but the forty-four week is in operation in the following trades:—Brickmaking, quarrying, sawmilling, bootmaking, tailoring, printing, paint and varnish making, and building.

The number of working hours per week in the different industries is shown in each case.

Thermometers.—Up till April, 1917, the thermometers were exposed in a shed 11 feet square, of which the sides were 5 feet 6 inches high, and enclosed to within about 30 inches of the ground with open lattice work. The roof was conical, rising to 13 feet above the ground, and was covered with louvres close enough to keep out rain. From April, 1917, the thermometers have been exposed in a standard Stevenson Screen.

Rain-gauge.—The rain-gauges are circular, 8 inches in diameter, and with rim 15 inches above ground. Two similar gauges, placed on the ground 11 feet apart, are used; the larger record is taken. The pluviometer results are from a gauge of the same diameter as the rain-gauge, 4½ feet above ground.

No. 16.—Meteorological Conditions, New South Wales—1924.

The meterological conditions prevailing in 1924 were exceptionally favourable to the agriculturist and pastoralist. The rainfall on the whole was good both in regard to quantity and distribution, for, although there were periods of dryness they were generally of short duration and interspersed by good falls of rain. Some areas were less favoured than others, notably the country west of the River Darling, where the year was mostly dry, while in parts of the Central and South Coasts the rainfall was deficient.

During the first seven months of the year, the rainfall was, on the whole below the average, but the shortage was not great and the dry months were separated by months of fair to good rainfall in most districts. January, March and May, in particular were dry, but in February and April good rains fell. During June and July, the rainfall was satisfactory in most parts, although rather below the average. From August till December, the rains were heavier and generally above normal, particularly in November, when the torrential downpours caused widespread floods especially in the Rivers Barwon, Macintyre, and Namoi.

The total rainfall for the year was considerably above normal over the greater part of the State. The areas which received less than the average being practically all the coast, north from Seal Rocks and south from Sydney, parts of the Central Tablelands, and a considerable area in the Western Division. The shortages were considerable on some parts of the North and South Coasts, and in parts of the extreme north-west.

More than the usual number of cyclonic disturbances occurred off the coast of the State and these often attained considerable severity. Severe storms were also experienced inland on several occasions, sometimes accompanied by thunder and heavy hail, resulting in damage to crops and property. Southern disturbances although attaining severity on some occasions were less prevalent than usual, especially during July.

No. 16.—Meteorological Conditions, New South Wales—1924.—*continued.*

The highest temperature of the year was 115 degrees at White Cliffs on 18th January, and the lowest 4 degrees at Kiandra on 5th August. Snow extended northward to the Blue Mountains on a few occasions, and to places of the Northern Tablelands on 23rd May. The latter part of the year was cool to a marked degree with a prevalence of southerly winds.

The annual records at Sydney were as follows:—Total rain, 3,701 points (1,073 points below normal); highest shade temperature 98·0 degrees on 9th January lowest 39·8 degrees on 20th June; mean maximum temperature, 71·3 degrees (1·2 degrees above normal); mean minimum temperature, 55·5 degrees, (0·7 degrees below normal); greatest wind velocity, 55 miles per hour from west on 14th August.

The following is a résumé of the weather conditions prevailing in each month of the year:—

January:—The rainfall was above normal in the central coastal districts, in the north-western districts, in parts of the Central Tablelands, and along the southern border. The rainfall was deficient elsewhere, and was less than 50 per cent. of the average in some parts, more particularly in the Central Western Plains and the north-west quarter of the State. Very heavy downpours were experienced on the Central Coast in the vicinity of Gosford.

Some severe heat spells occurred, the highest temperature being 115 degrees at White Cliffs.

February:—February was a wet month and rainfall was above normal in all except the costal districts, and along the western border. The monthly totals were more than double the average in the southern hinterland and the North-Western Plains. The deficiency in the coastal divisions was unimportant.

The highest temperature was 106 degrees at Menindie and Tibooburra.

March:—In this month the rainfall was below the average over most of the State, the only parts to receive more than the normal amount being the Riverina and a few small areas on or near the Coast. Most inland areas received less than an inch and many places failed to register half an inch.

The highest temperature was 105 degrees at three western stations and the lowest 26 degrees at Kosciusko.

April:—During April the rainfall was almost negligible in the extreme western and north-western parts of the State, but elsewhere the rains were generally above normal, the excess in most cases ranging from 1 to 2 inches. Very heavy totals were registered on parts of the central coastal districts.

Temperatures ranged from a maximum of 94 degrees at Tiboorburra to a minimum of 18 degrees at Kiandra.

May:—This was a dry month and only a few isolated places received their normal rainfalls. The falls in coastal districts were mostly from 1 to 2 inches. Some northern parts received over 3 inches, but on the west from the tablelands, it was almost without exception below an inch. Many places registered less than half an inch while in the north-west the month was practically rainless.

The highest temperature was 87 degrees at Tibooburra and the lowest 14 degrees at Kiandra.

June:—Fair rains were experienced over most of the State during June. The totals for the month were below normal at most stations but the shortages were not great except on parts of the central and southern coast and tablelands. The rainfall exceeded the normal in parts of the Central Western Plains and Riverina, and also in the extreme north-east. Flood falls occurred in the Tweed and Richmond River districts, and the monthly total exceeded 15 inches at Byron Bay and Ballina.

Temperature ranged from 80 degrees at Bourke down to 8 degrees at Kiandra.

July:—The rainfall was less than half an inch over most of the far west and south-western districts, and it was considerably below the average on the southern highlands. Elsewhere however it was nearer normal, and exceeded normal in the north-eastern parts of the State as far inland as Walgett, and also on parts of the Central Western slopes and Plains, and South Coast. Very heavy totals of over 10 inches were again registered on the far North Coast.

The highest and lowest temperatures were 79 degrees and 13 degrees at White Cliffs and Kiandra respectively.

August:—Good and very beneficial rains fell in the State during this month, except on the South Coast and in the extreme north-west. The totals exceeded normal over most of the southern inland areas and parts of central northern and north-eastern districts. The rainfall was below normal in coastal districts and over a considerable part of northern inland areas, but the shortages were not great in the majority of cases.

The extreme temperatures for the month were 88 degrees at Tibooburra, and 4 degrees at Kiandra.

September:—This month was marked by a series of extensive inland rains, and the rainfall exceeded the normal over the greater part of the State. Parts of the Riverina and far West received less than the average but the shortages were not great. On the South and North Coasts and in the north-west corner the deficiencies were considerable.

The temperatures ranged from 92 degrees at Tibooburra to 16 degrees at Kosciusko.

October:—The rainfall was again fair to good over the greater part of the State during the month, and a considerable area received total falls in excess of the normal for October. The shortage in the other parts was not great in the majority of cases except on the South Coast and Central Coast, where the rainfall amounted to only about half of the normal.

The highest temperature was 106 degrees at Tibooburra and the lowest 20 degrees at Kiandra.

November:—Very heavy rains were experienced over most of New South Wales during this month, except in the extreme north-west corner. The rainfall was from two to four times the normal over most inland areas, and totals of over 7 and 8 inches were registered at many places. Floods occurred in many parts, more particularly in northern inland areas, where the Rivers Macintyre, Namoi, Barwon and some others exceeded flood stage by considerable amounts.

Temperatures ranged from 24 degrees at Kosciusko to 109 degrees at Wilcannia.

December:—Fair to goed rains were again recorded over a considerable part of the State but it was rather dry over mos western and north-western districts. Rainfall exceeded normal on the far South Coast, where some very heavy totals were registered, and on parts of the Central and North Coasts and also in some inland districts.

Temperatures ranged from 110 degrees at Wenworth, Euston, and Balranald to 19 degrees at Kiandra.
